

# First Annual Cho Lecture

The "Cho Lecture Series" is presented by the Maxine Goodman Levin College of Urban Affairs Ph.D. Program in Urban Studies and Public Affairs. It is made possible by the generous pioneering contributions of Nam-Wook Cho, Chairman of Sambo Construction Company, Cheongju City, South Korea. The lecture series will promote accessible scholarly discourse on current urban topics, support the development and transfer of knowledge through international collaboration, and facilitate worldwide cultural exchange.

## Technology and Cities: Review and Prospects for the Future

Presented by Tschangho John Kim  
Endowed Professor of Urban and Regional Systems  
University of Illinois at Urbana-Champaign

Friday, May 1, 2009 • 3:00-5:00 p.m., reception to follow  
Levin College of Urban Affairs, Atrium • 1717 Euclid Avenue • Cleveland, Ohio  
*Registration and information* [www.urban.csuohio.edu/forum](http://www.urban.csuohio.edu/forum) or call 216/523-7330.

Throughout history, technology advances have led to successive and dramatic reorganizations of urban space. Today, much is being written about how new information and communication technologies (ICTs)—the Internet, personal computers, and wireless communications—are transforming the world as we know it. But how will that transformation really take shape for future cities? Will the information technology revolution alter the future urban landscape as significantly as the automobile? What policies have harnessed the full potential of technologies to make future cities better places for human settlements and what would harness the potential of ICTs to make cities better?

### Agenda

- 3:00-3:15 pm Welcome and Introductions
- 3:15-3:45 pm Tschangho John Kim, Endowed Professor of Urban and Regional Systems, University of Illinois at Urbana-Champaign
- 3:45-4:15 pm Local Response Panel  
Mark T. Ansboury, Senior VP & Chief Technology Officer, OneCommunity  
Michael C. DeAloia, "The Tech Czar"  
Leo Jeffres, Professor, Communications, Cleveland State University
- 4:15-4:30 pm Questions and Discussion
- 4:30-5:00 pm Reception
