/1 Total population change includes residual - see "State & County terms & definitions" at: <<http://www.census.gov/popest/topics/terms/states.html>>.

/2 Net international migration includes the international migration of both native and foreign-born populations. Specifically, it includes: (a) the net international migration of the foreign born, (b) the net migration between the United States and Puerto Rico, (c) the net migration of natives to and from the United States, and (d) the net overseas movement of the Armed Forces population.

/3 Broomfield, CO was formed from parts of Adams, Boulder, Jefferson, and Weld Counties, CO on November 15, 2001 and was coextensive with Broomfield city.

For purposes of presenting data for metropolitan and micropolitan statistical areas for Census 2000, Broomfield is treated as if it were a county at the time of the census.

Note: All geographic boundaries for the July 1, 2007 population estimates series are defined as of January 1, 2007. The Office of Management and Budget's statistical area definitions (for metropolitan, micropolitan, and combined statistical areas, as well as metropolitan divisions) are those issued by that agency in December 2006. The metropolitan and micropolitan statistical area population estimates are based upon the county estimates. The county estimates methodology is available at: <<http://www.census.gov/popest/topics/methodology/2007-st-co-meth.pdf>>.
