COURSE DESCRIPTION AND OBJECTIVES

This course will introduce students to the history, practice and impact of urban planning in the United States, primarily in its cities and suburban areas. Greater Cleveland will be featured. The first part of the course will provide a general background to urban planning. The second part will look at particular areas of urban planning and major issues. The third part will look at case studies of urban planning success.

The course objectives are:

1. Introduce students to the field of urban planning;
2. Provide students with an understanding of major planning initiatives in Greater Cleveland;
3. Improve students' analytical and writing skills.

COURSE FORMAT, ASSIGNMENTS AND GRADING

The course will be a combination of lectures, presentations by guest speakers and teams of students, examinations, and a written assignment.

Each student is required to complete the following assignments:

1. Assigned readings;
2. A midterm examination (October 27);
3. A final examination (December 13);
4. Analytical writing assignment (TBA);
5. Class participation: team presentation on selected city (November)

Grading:

1. Midterm exam: 30 percent (of the final course grade)
2. Final exam: 40 percent
3. Written assignment: 20 percent
4. Reading and class participation: 10 percent.

A grade of “Incomplete” will be given only for extenuating circumstances. Students are expected to attend classes (and notify the instructor in advance if they are unable to attend), read all assignments, and participate in classroom discussions.

STUDENTS WITH SPECIAL NEEDS

Any student anticipating needing special accommodations to take exams, complete assignments or participate in the class needs to inform the instructor after the first week of classes.

PLAGIARISM

Any student who knowingly plagiarizes in completing the written assignment will receive an appropriate reduction in the final course grade, which may include an “F”.
